MODULE 4: COLORS, LINKS, AND MEDIA BASICS

HTML COLORS

HTML colors are used to style text, backgrounds, and borders.

Colors can be defined using:

- Color names (e.g., Red, Blue)
- HEX (`#ff0000`)
- RGB (`rgb(255,0,0)`)
- HSL (`hsl(0,100%,50%)`)

COLOR APPLICATIONS

- **Text Color**
- **Background Color**
- **Border Color**

```
<h1 style="background-color:yellow;  
border:2px solid Violet;color:white">Hello</h1>
```
