# HTML QUOTATIONS

## QUOTING TEXT AND CITATIONS

# KEY QUOTATION TAGS

| Tag                             | Purpose                |
|---------------------------------|------------------------|
| <code>&lt;q&gt;</code>          | Short inline quotation |
| <code>&lt;blockquote&gt;</code> | Long block quotation   |
| <code>&lt;cite&gt;</code>       | Citation/title of work |
| <code>&lt;address&gt;</code>    | Contact information    |

# USING <Q> FOR SHORT QUOTES

```
<p>He said: <q>HTML is amazing!</q></p>
```

Result: He said: "HTML is amazing!"  
(Browser adds quotation marks automatically)

## USING <BLOCKQUOTE>

```
<blockquote  
cite="https://www.example.com">  
  This is a longer quotation that gets  
  indented  
  and treated as a separate block of  
  text.  
</blockquote>
```
