HTML COMMENTS

ADDING NOTES IN YOUR CODE

COMMENT SYNTAX

```
<!-- Your comment goes here -->
```

Example:

```
<!-- This is a comment that will NOT display -  
-->
```

```
<p>This text is visible</p>
```

```
<!-- Comments help document your code -->
```

WHY USE COMMENTS?

- ✓ Explain complex code sections
- ✓ Temporarily disable code (debugging)
- ✓ Leave reminders for yourself or team
- ✓ Organize large HTML files

```
<!-- HEADER SECTION START -->
```

```
<header>...</header>
```

```
<!-- HEADER SECTION END -->
```

NOT visible to users (only in source code)

COMMENT TIPS

Can be multi-line:

```
<!--  
  This is a long comment  
  that spans multiple lines  
  for better explanation  
-->
```

Cannot nest comments:

```
<!-- Outer <!-- Inner --> --> (WRONG!)
```

MODULE 3 FORMATTING TAGS
