STYLING WITH THE STYLE ATTRIBUTE

THE STYLE ATTRIBUTE

Syntax: `style="property:value;"`

Common CSS properties:

`color` → text color

`font-family` → font type

`font-size` → text size

`text-align` → alignment

STYLE EXAMPLES

```
<p style="color:blue;">Blue text</p>
```

```
<p style="font-family:verdana;">Verdana font</p>
```

```
<p style="font-size:20px;">Large text</p>
```

```
<p style="text-align:center;">Centered text</p>
```

```
<h1 style="background-color:yellow;">Yellow  
background</h1>
```

USING MULTIPLE STYLES

```
<p style="color:red; font-size:18px;  
text-align:center;">  
    Red, large, centered text  
</p>
```

Separate styles with semicolons (;)
Multiple properties can be combined
